ANNULMENT OF ARBITRATION DECISION PASSED FROM PEACEFUL SETTLEMENT LABOR DISPUTES AGENCY

Summary

Word of the dispute is primarily associated with the intervention of the court. This is a traditional way of resolving labor disputes. The tendency in the world is to get as many of these disputes resolved peacefully, fast and fair manner at low cost. Avoiding court decision increases the chance of finding a favorable solution to the two opposing sides. The content of an arbitration agreement is of great importance to the parties in the arbitration proceedings. An arbitration agreement express the contractual freedom of the parties and list of facultative elements of an arbitration. Main benefits from peaceful solving labor disputes are expediency and cheap costs of the arbitration process. The arbitrator represents quasi – judicial instance and him may be wrong in his decision. The decision process is single and there is no possibility of appeal. This option would slow down the process of resolving issues. But, it can not be situation that would not be any way to void the wrong decision of the arbitrator. It could be chance to avoid this situation. Exactly because of that case, it must be provided for the possibility of annulment decision from peaceful settlement labor disputes agency. Reasons for cancellation must be a procedural character. Courts should not enter into the merits because it would further slow the troubleshooting. This would replicate the slowness of the trial in arbitration deciding. This length of proceedings before the courts is contrary to the idea of arbitration as a quick, cheap, efficient and above all peaceful methods of resolving labor disputes. Court in relation to arbitration should have only a supervisory function. Blending the merits of arbitration decisions would be deprived of independence and efficiency.

Key words: *arbitrators, Agency for peaceful settlement of labor disputes, peaceful resolution of labor disputes, annulment of the arbitral award.*

* Customs agent at SPIROS D.O.O.
